IT'S TIME TO HIT THE ROAD A fuel-efficient Mercedes-Benz® diesel engine powers the full-featured Era. All of the premium features you want for life on the road are cleverly arranged in an efficient RV that is extremely easy to handle. It is this SmartSpace™ philosophy that allows the Era to make the most of the available space with innovative features and stylish touches such as UltraLeather™ furniture and bold exterior graphics.

Increase your already spacious interior storage capacity by replacing one or both of the companion seats with cabinets.

The LCD TV extends and rotates to be viewed from the front or rear of the coach. A home theater system with a CD/DVD player provides premium entertainment options. The TV and CD/DVD player are 12-volt powered, so they operate without shoreline or generator power.

Every inch of space in the Era is focused on comfort and usability. The cab seats swivel to face the companion seats and become an integral part of the living space. The table stows away for travel and can also be moved to the rear of the coach for added flexibility.

You'll be amazed at the full-featured galley that includes a microwave oven, range top and refrigerator/freezer. You'll also enjoy residential luxuries such as a solid-surface countertop and full-extension drawer slides. The Era features contemporary curved cabinetry and increased workspace with convenient glass covers for the range top and sink.

The sofa comes standard in UltraLeather and can be upgraded to a power sofa that reclines at the touch of a button.

You will appreciate the ease of converting the sofa into a bed. Extra storage can be found beneath the seat.

The rear doors open up to 270° for full access and the sofa can easily be removed to transport larger items.

Weights & Measures

	170R	170X
Length	22'9"	24'1"
Exterior Height ¹	9'7"	9'7"

Warranty⁵

12-month/15,000-mile basic warranty⁶

Optional

- The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please contact your dealer for further information.
- Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
- Capacities shown are tank manufacturer's listed water capacity (W.C.) Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
- Actual towing capacity is dependent upon your particular loading and towing circumstances, which includes the GVWR, GAWR and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.
- See separate chassis warranty.
- See your dealer for complete warranty information.

Not all items available in combination. See dealer for details.

Winnebago Industries® continuing program of product improvement makes specifications, equipment, model availability and prices subject to change without notice.
