

A Class C
with the
heart of a
sports car.

Room to move.

Thoughtful touches give the Vista's interior a feel that is much larger than its nimble 21-foot length. A front-to-back 6'5" ceiling height adds to the roomy feel. Overhead cabinets are plentiful and spacious while additional, conveniently accessible interior storage is provided under the couch and front dinette seat.

You'll appreciate the privacy provided by the pleated shades found in the lounge area. Interior comforts also rate an "A" with custom Stitchcraft furniture, carpeted living area and easy-to-clean Congoleum® floorcovering in the galley and bath areas.

21B-Blue Cameo with Portsmouth Oak

Head of the class.

Driving performance and pleasure are no longer limited to sports cars. Vista is the Class C motor home that gives you fun, versatility and zip. All packed into a sleek package just 21 feet long. The time-tested Volkswagen® drivetrain provides a tough 201-hp V6 engine with surprising power and fuel efficiency. Independent front torsion-bar suspension, front-wheel drive and convenient size make the Vista a treat to drive and maneuver. Modern design features include a comfortable, roomy interior and basement storage. This brochure can only whet your appetite. You'll need a test-drive to really appreciate the Vista.

A living space that encourages good living.

Whether your hobby is bird watching or people watching, Vista has plenty of room for comfortable living.

Just like home.

The rear bath area includes a good-size shower, molded sink and vanity, and a surprisingly spacious wardrobe. The toilet is residential height and features a foot-pedal flush for added convenience.

Driving performance.

Essential controls are right at your fingertips, including the Panasonic® AM/FM radio and CD player with wireless remote. Dual airbags provide safety and peace of mind. Additional touches include the heated windshield wiper washer nozzles and the one-touch power windows with a pinch guard feature. When the auto-up feature is active, the windows will retract automatically if resistance is noted.

The key to it all.

Only your key starts the engine. It's electronically encoded for anti-theft security. A keyless entry remote is built into the handle, eliminating the need for a separate transmitter. And when not in use, the key folds into the handle so it's easier on your pants pocket.

Breathe easier.

The dash air system includes a removable micron filter for improved air quality.

Fine dining.

There's no reason to curtail adventurous meal making. The fully equipped galley features a three-burner Magic Chef® range/oven, vented range hood with light, plus a recessed stainless steel sink. The Deluxe Package replaces the range/oven with a microwave and a three-burner range top with storage. The spacious cabinetry has been designed to maximize convenient storage. The large handles enable easy opening and closing of both drawers and doors.

Stock up, chill out.

The roomy single-door refrigerator with freezer provides ample cold storage for all your goodies. A shelf above the refrigerator is designed to accommodate a television (television not included) and is equipped with a 12-volt power receptacle and an antenna/cable connection.

A good gauge.

The conveniently located monitor panel features a flush-mount design. You can easily check and operate important functions such as tank levels, the generator start/stop switch, water pump and battery power. A battery disconnect switch, located in the entryway, lets you disconnect house batteries for storage.

Lock it away.

Innovative use of space sets the Vista apart. A good example is the lockable storage compartment designed into the driver's door trim panel.

A good night's rest.

Vista's versatile floorplan provides plenty of sleeping space. The dinette and couch easily convert into comfortable beds and the overhead bunk offers roomy accommodations.

It's great outside.

Vista's one-piece fiberglass sidewalls are amazingly tough—typical for Winnebago Industries design. The combination of a powerful V6 engine that produces 201 horsepower and front-wheel drive allows for superior handling. Basement storage lets you bring along extra gear. Stylish 16" aluminum wheels are available.

It's the little things. Of course, the medium and big-sized things are pretty neat, too.

Very cool.

Relax in comfort on hot days with the available 7,100 BTU roof-mounted air conditioner. A high-efficiency roof-mounted air conditioner is also available as part of the Deluxe Package (shown). The electric heatstrip, available with either roof AC, provides warmth without turning on the furnace.

Great moves.

You'll find Vista's combination of front-wheel drive, a powerful engine and independent front torsion-bar suspension gives it superior maneuverability and handling.

You've got pull.

The available trailer hitch plus a powerful V6 engine gives Vista 2,000 pounds of towing capacity.^d

Winterize.

The standard water winterization package makes coach storage preparations a snap.

Pack it away.

Who doesn't want to bring along extra gear? Pass-through basement storage lets you do just that.

Smoother sailing.

Available adjustable rear auxiliary air springs help make your ride smooth.

Easier access.

Cab doors open nearly 90° for easy access.

One good turn.

A tight turning radius and responsive rack-and-pinion steering make for easy maneuverability.

a The height of this model is based on the curb weight of a typically equipped unit on the standard chassis. The actual height of your vehicle may vary by as much as 2" depending on chassis or equipment variations.
b Your motor home's load capacity is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motor home.
c Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
d Actual towing capacity is dependent on your particular loading and towing circumstances, which includes the GVWR, GAWR and GCWR as well as adequate trailer brakes. Please refer to your vehicle's operator's manual for further towing information.
e Not all items available in combination. See dealer for details.
f See your dealer for complete warranty information.
Winnebago Industries' continuing program of product improvement makes specifications, equipment, model availability and prices subject to change without notice. Comparisons to other motor homes are based on the most recent information available.

Heated nozzles.

Vista is loaded with smart features such as the heated windshield washer spray nozzles.

See here.

Vista's low-mounted exterior mirrors are remote controlled and feature heated electric defrost for added convenience.

Cut the cord.

Some of the world's most beautiful places don't have places to plug in. But that doesn't matter to a Vista owner thanks to the available Onan[®] MicroLite™ 2.8 kW generator.

Keep it clean.

The convenient location of Vista's available wash station keeps messy cleanup jobs outside. A second water pump switch is located in the compartment so you don't have to track inside to turn on the pump.

All the horses you need.

Vista features a fuel-efficient 201-hp, 24-valve, dual overhead cam, 2.8-liter, Volkswagen V6 engine.

Wheel nice.

Any way you look at it, the Vista's a beautiful vehicle. Especially when equipped with the available 16" aluminum wheels (shown on vehicle). Wheel covers with low-profile tires come standard (shown in inset).

Not all motor homes are created equal.

As you take a closer look, you'll see that there is much more to the Winnebago Vista than a long list of standard features and a compelling floorplan. Beneath it all you'll find a SuperStructure® foundation of strength and durability, and Winnebago Industries' recognized service and warranty support.

We are committed to service.

We back our motor homes with the best after-the-sale service in the industry.

- 12-month/15,000-mile basic limited warranty
- 36-month/36,000-mile warranty on structure
- Standard 10-year limited parts-and-labor roof skin warranty
- Complimentary 24-hour Roadside Assistance Program
- TripSaver Fast Track Parts. TripSaver guarantees that in-stock warranty parts ship directly to your dealer within 24 hours
- Nationwide dealer service network

Certified quality.

Recreation Vehicle Dealer Association members annually rate RV manufacturers on the quality of their products, and on their sales and service support. Winnebago Industries has achieved the coveted Quality Circle Award every year since its inception, the only major motor home manufacturer to do so.

Learn more about what sets Winnebago Industries apart.

Ask your dealer for this guide. It will help you learn what makes Winnebago Industries motor homes distinctly superior to other brands.

Warning: Joining WIT has been known to cause excessive fun.

Winnebago-Itasca Travelers (WIT) is a club for owners of Winnebago Industries motor homes. WIT is a great way to meet people and offers you:

- Caravans and rallies
- Local and state group activities
- Benefits for RVers

is the term given to Winnebago Industries' structural motor home design and construction. Rather than a single component, it is the culmination of design integration that incorporates steel and aluminum substructures; welded tubular or aluminum floor risers; interlocking joint technology; and Thermo-Panel® floor, roof and sidewalls to form a high-strength, durable vehicle body.

Interlocking joint construction

utilizes advanced extruded aluminum components to create integrated floor-to-sidewall joints. This design more evenly distributes the weight of the walls and roof, making a stronger, more durable body than inferior designs that depend on screws to carry the weight.

The foundation substructure

assembly is precision-aligned to maximize strength and cross-coach support as well as durability.

Laminated risers

feature a welded aluminum core for superior strength and provide a stable base for the floor structure and storage compartments.

Critical steel components

are treated using an advanced electrodeposition coating process that provides superior corrosion protection.
