- GVWR (Gross Vehicle Weight Rating) is the maximum permissible weight of this fully loaded motor home. The GVWR is equal to or greater than the sum of the unloaded vehicle weight plus the cargo carrying capacity.
 - GAWR (Gross Axle Weight Rating) is the maximum permissible loaded weight a specific axle is designed to carry.
 - Base Weight is the estimated weight of the motor home without fuel, options, water, cargo or passengers.
 - GCWR (Gross Combined Weight Rating) is the value specified by the motor home manufacturer as the maximum allowable loaded weight of this motor home with its towed vehicle. Towing and braking capacities may be different. Refer to Fleetwood and chassis manufacturer's manuals for complete information.
 - Length taken from front bumper to rear bumper (excludes accessories).
 - Excludes safety equipment and awnings.
 - Motor homes feature a body-width over 96" which will restrict your access to certain roads. Before purchasing, you should research any state and/or province road laws which may affect your usage.
 - Tank manufacturer's listed water capacity (WC). Actual propane capacity is 80% of water listing as required by the safety code.
- † The chassis manufacturer recommends the installation of a supplemental brake control system to activate the brakes on the vehicle or trailer you are towing. Hitch receiver ratings expressed are maximum for the hitch receiver installed and may require the purchase of additional equipment that is dependant on the weight of the towed load. Setting the Standard in Motor Home Quality.

Fleetwood® prototypes are exposed to thousands of miles of durability testing. Those components that don't survive are redesigned until they do. This sets our standard in safety and durability.

Reliable TuffPEX® plumbing runs throughout each vehicle creating a durable seal on all internal tubing. TuffPEX® assures water flow and functions in colder temperatures. The TuffPEX® system is an industry leader in quality plumbing.

To assure a strong, weather-resistant structure, Fleetwood Vacu-bonds® all sidewalls, floors and ceilings to durable aluminum or steel frames. The Vacu-bond® process is unmatched by many competitors.

Fleetwood sinks and shelves are designed to handle full-size kitchenware. Few competitors can say the same.

Name Brand Components. Spartan®, Dupont®, GE®, Flexsteel®, Moen®, Onan®, Norcold® and Dometic® to name a few. We gather the best name brands in the industry to create a superior coach for you.

What Drives You?

Maybe it's feeling like you're the only one on Earth. Perhaps it's the unique sense of closeness with the great outdoors. Or, it might be the joy that comes from spending quality time with family and friends. Whatever the reason, we know that you have a strong drive to experience everything that comes with spending time on the road. And for more than 50 years, we've shared that passion with you. Because we're RV enthusiasts ourselves, you can see our passion in the vehicles we design and build. Own a Fleetwood, and you'll feel like you're not just traveling, but embarking on an experience unlike any other. Set your own course for adventure and get out there and explore the world around you. Once you do, you'll see what it is that drives us — it's you.

RV OWNERCARE* is a limited one-year/15,000-mile coach warranty and three-year/50,000-mile structural warranty, whichever occurs first, and it is fully transferable for the first 12 months. RV OWNERCARE is one of the RV industry's most comprehensive programs and includes systems, appliances, components and construction, with no deductible and no service charge. RV OWNERCARE coverage is provided from a company that will be around in the future to service your needs. See your nearest Fleetwood dealer for a full explanation of benefits and restrictions.
