*Towing capacity is limited by GCWR; your vehicle's towing capacity is the difference between the GCWR and the actual vehicle weight, including all water, fuel, passengers and cargo. Your towed vehicle should be equipped with auxiliary brakes if the weight of the towed vehicle exceeds 1,000 lbs. Consult your owner's manual for further towing information.

**All tank capacities are estimated based upon calculations provided by the tank manufacturers and represent approximate capacities. The actual "usable capacity" may be greater or less than the estimated capacities based upon fabrication and installation of the tanks.

***Actual filled LP capacity is 80% of listing due to safety shut-off required on tank.

ROADMASTER® CHASSIS

Built to deliver the very best diesel motorhome experience, Roadmaster construction utilizes advanced design and engineering, along with its eight outboard-mounted air bags and shock absorbers, to distribute stress evenly throughout the entire chassis, reducing the possibility of twisting and increasing durability and reliability. It's the ultimate foundation for a luxury ride.

MAXXFORCE® ENGINE

The MaxxForce 10 design grew from a big idea: bring to the mid-range diesel market traditional big bore features like wet-sleeve design and in-chassis rebuild capability. This model, which brings increased 9.3-liter displacement by longer stroke, meets the requirements of more demanding applications.

The high-output MaxxForce 10 offers these features plus the performance you would expect from larger heavy-duty engines in a weight-saving medium-duty package.

WARRANTY INFORMATION

Enjoy your next RV adventure with the peace of mind that comes with a 12 month/24,000 mile basic limited warranty; a 5 year/50,000 mile limited warranty on aluminum or steel frame structure; and a 3 year/50,000 mile limited warranty on the Chassis. Review your coach's limited warranty in full for complete terms and conditions.
